ABOUT THE TOEFL® PRIMARY™ TESTS

English-language proficiency is an increasingly important skill for students worldwide, as it provides access to a wide range of educational, personal, and professional opportunities. Reliable assessment of progress in English language learning at a young age provides students with an advantage in their language proficiency development.

Educational trends indicate a global need for a well-designed, objective measure of proficiency in English to help younger students.

Educational Testing Service (ETS) developed the TOEFL® Primary™ tests for the English language learning needs of students as young as 8 years old who have been learning English for about a year or more, though the tests may be appropriate for other students as well.

The TOEFL® Primary™ tests are not based on or limited to any specific curriculum. All TOEFL® Primary™ tests assess students’ knowledge, skills, and abilities for fulfilling core communication goals in English. These communication goals are shared across curricula worldwide. The tests allow teachers and parents to learn about young students’ developing English skills. Scores can be used to plan future lessons that match students’ needs and to support decisions to place students in classes appropriate for their ability levels. The tests can also be used to measure student progress in developing English language proficiency over time.

These practice tests will help students know what to expect when they take the TOEFL® Primary™ Reading and Listening–Step 1 tests. Students will become familiar with the types of questions and how to mark the answer sheet. Students will not receive scores based on their performance on the practice tests.

There are no passing or failing scores set by ETS for the TOEFL® Primary™ tests — each school decides for itself how to use scores.
WHAT IS IN THE TESTS?

The TOEFL® Primary™ Reading and Listening–Step 1 tests are paper-and-pencil tests of reading and listening proficiencies and are designed for young students at the beginning stages of learning English. The Reading test has 39 questions, including example questions. The Listening test has 41 questions, including example questions. The total testing time for both tests together is about 1 hour.

READING TEST

The Reading test assesses students’ abilities to:

- recognise simple words.
- understand simple sentences.
- understand 2–4 simple sentences about a topic.
- find information in menus, schedules, and posters.
- understand a paragraph of about 150 words on an everyday topic.
- locate and connect information within a sentence or in a paragraph.

The Reading test contains 3 different question types:

- **Match picture to words**
  Students see a picture and 3 written options. Students select the option that matches the picture.

- **Sentence clues**
  Students read a short description and select the option that matches what is described.

- **Reading sets**
  Students read a passage, which may be a single paragraph or may be of another type (menu, schedule, poster, etc.), and answer 2–4 questions about the passage.
LISTENING TEST

The Listening test assesses students’ abilities to:

- recognise simple words.
- understand simple directions heard at home and at school.
- comprehend commonly used expressions and phrases.
- identify details in short social conversations.
- understand the purpose of messages and announcements of about 50 words.

The Listening test contains 5 different question types:

- **Listen and match to a picture**
  Students see 3 pictures and listen to a sentence. Students select the picture that matches the sentence they heard.

- **Listen to directions**
  Students see 3 pictures and hear some directions. Students select the picture that shows the person(s) who followed the directions they heard.

- **Basic conversations**
  Students hear 3 versions of a 2-turn conversation. Two versions do not make sense, and one does. Students select the version that makes sense.

- **Details in conversation**
  Students listen to a conversation and answer one question about a detail in the conversation. The question and answer choices are both spoken on the audio track and shown in the test book.

- **Messages**
  Students listen to a message and answer one question about the message. The question and answer choices are both spoken on the audio track and shown in the test book.
PREPARING FOR THE TOEFL® PRIMARY™ TESTS

TAking the practice tests in this book will give students a good idea of what the actual tests are like in terms of the types of questions and the time limits they will have. Students will have 30 minutes to complete the Reading test, and the Listening test time is controlled by a recording. During the actual testing, if a student finishes the Reading test in less than 30 minutes, he or she cannot go on to the Listening test. In the same way, students are not permitted to go back to the Reading test when they are working on the Listening test.

Each test begins with a set of directions that includes sample questions and answers. It is important that students read or listen to these directions so they understand exactly what to do before they start to work.

Here are more guidelines for using the practice tests:

- Choose a quiet room in which to work.
- Use a stopwatch or a clock so students can know the correct amount of time for the Reading test.
- Use a sharpened No. 2 or HB black lead pencil and an eraser.
- Remove any study materials from the work area.
ANSWER SHEET

COMPLETING YOUR ANSWER SHEET

When marking answers on the answer sheet, students must:

- Fill in only one circle for each question.

- Turn to page 38 in this book to review your answers. You can find the scripts for the Listening items on page 39.
- If you did not have time to answer all of the Reading questions, go back and try to answer those questions.

TAKING THE TOEFL® PRIMARY™ TESTS

Students may be asked to take the TOEFL® Primary™ tests in their school or may request to take the tests through ETS or a local TOEFL® Primary™ associate.

After completing the Practice Test book, students should feel more familiar with the types of questions and how to mark the answer sheet during an actual TOEFL® Primary™ test. Taking the practice tests may help students identify areas where they need improvement.

When students take the actual TOEFL® Primary™ tests, they will receive a score report that shows their scores for each test. The score report will provide information on the English language abilities typical of test takers with similar scores.

Students' scores are also mapped to the Common European Framework of Reference (CEFR) as another means to understand students' English language abilities.

English reading ability is a rewarding skill, but it takes practice to improve. In addition to scores and CEFR level, the TOEFL® Primary™ score report provides a Lexile® measure to help parents and teachers find the right books for students. Lexile measures are the standard for matching readers with appropriate texts. Millions of English language learners and teachers worldwide use Lexile measures to help improve reading in English and track progress over time. With Lexile measures, readers at every age and proficiency level can find the right books to read. The service is free and easy to use. For more information, visit www.lexile.com/toeflprimary.
